Online Radio Application For Mac

Word Application For MacI've been searching for other broadcasting tools, but the others I found were either completely out-of-date or totally inaccessible.. g For the program list or the library Does anyone on here possibly know more about this topic?Many thanks for any suggestions!:-) Robin Forum: • User Options • or to post comments.. The main problem with that, though, is that I cannot seem to be able to access any playlists, e.. 7 I'm currently working on launching an internet radio station, and would like to broadcast from my Mac.. Word Application For MacWriting Applications For MacDownload myTuner Radio - Live FM Stations & Internet Radios for macOS 10.. Hi Marrie, thank you for your reply! Unfortunately, your setup wouldn't work well for me, as I kind of need a program such as RadioLogic.

Do any of you have any suggestions for such a program? I know there is RadioLogic which I looked at.. I don't only need that to inform listeners about what's playing, but also for stream licensing reports.. Do any of you have any suggestions for such a program? I know there is RadioLogic which I looked at.. The main problem with that, though, is that I cannot seem to be able to access any playlists, e.. KMCN (94 7 FM) is a radio station licensed to Clinton, Iowa and broadcasting an Adult Hits format under the branding Mac 94.
